On the substance, Erin and I could convey EPA's 404 (and HCP) concerns at the meeting on behalf of the Wetlands Office with a modest amount of coordination with Jason, Melissa, and Paul.

On the logistical front, 2:00-4:00 on OCT 2nd is not convenient for both of us so we'd need to rework our schedules if we're to appear in person.

Thanks, Tim

I agree that it would be helpful to have Melissa and/or Paul, if they are available, so I'm cc'ing Jason Brush on this message to inquire about their availability. I have a conflict (possibly movable) from 2-2:30, but am otherwise available to participate via phone; not sure travel to Sacramento would be warranted.

Hi Everyone,

Sorry I missed the follow-up meeting this Wednesday. Tim, Tom, and Stephanie all gave me summaries of the discussion. Sounds like it was a good conversation.

Could we check in with the Wetlands Section to see if Melissa Scianni and/or Paul Jones may be able to attend this meeting? They reviewed sections of the BDCP DEIS and have been involved in the BDCP CWA JD, respectively. I can be available to attend but I need to reschedule something. It seems like our role would be to listen and support the Corps where our CWA perspectives are consistent. There are considerable CWA 404 challenges on the horizon.

- [REDACTED] Range of alternatives for alternatives analysis
- [REDACTED] LEDPA identification
- [REDACTED] Mitigation and Monitoring Plan

I'm not sure what level of detail this meeting would address each of those issues. The Corps comments are fairly clear that the DEIS is insufficient for their CWA and Rivers and Harbors Act NEPA and permitting responsibilities.

Team BDCP,

Recommendations on who should attend for us? Stephanie will be out, and I'm thinking this is more directly in Water Division's wheelhouse?
